

The next 4 pages tell you how to make woven bracelets!

# Big Band

## How to make the Big Band:

1. You will need five different colored strings (A,B,C,D,E), each 30 inches long.

2. Fold the strings in half. Tie them together with a knot near the top. Now you have ten strings to work with.

**Note:** Put the strings of the same color together to make five thicker strands (A,B,C,D,E).

**3.** Tape the loop to a tabletop. When making the Big Band, always weave with the strand on the right!

**4.** Arrange the strings like this: A, B, C, D, E. Start on the right with E. Put E over D, under C, over B, and under A. Pull E up tightly. Leave E on the left.

Now take D and put it over C, under B, over A, and under E. Pull D up tightly. Leave D on the left.

Now take C and put it over B, under A, over E, and under D. Pull C up tightly. Leave C on the left.

**5.** Hold on firmly to the strings as you weave. Keep weaving until the bracelet is long enough to go around your wrist.

**6.** Tie the loose ends together with a knot. To close the bracelet, wrap the ends around the loop. Pull the ends through the loop as shown. Pull tightly.
